(2) A warning in the following terms shall be affixed to every cylinder containing gas—

—WARNING—

Gas Cylinder Rules, 1960.

- 1 Do not change the colour of this cylinder.
- 2 This cylinder may not be filled with any gas other than the one at its contents.
- 3 This cylinder should be kept and it should not be placed near a stove or other source of heat, nor be exposed to the sun.
- 4 No inflammable material should be stored in the immediate vicinity of this cylinder or in the area room in which it is kept.
- 5 No oil or similar lubricant should be used on the valves or other fittings of this cylinder.

(3) No person shall permit or transmit any cylinder which does not comply with sub-rules (1) and (2).

14. General provisions:—(1) Cylinders together with their valves and other fittings and the registration numbers prescribed under rule 12 shall always be maintained in good condition.

(2) No oil or similar lubricant shall be used on any valves or other fittings of any cylinder.

(3) Being as provided in clause (2) of sub-rule (1) of rule 5 and Sub-rule 1, no cylinder shall be subjected to any heat treatment or exposed to a high temperature or the sun or stored with any inflammable or explosive material.

(4) Every cylinder containing compressed or liquefied gas shall have its valve securely closed so as to prevent leakage.

15. Protection of valves during transport:—(1) Every cylinder containing compressed or liquefied gas shall, if it is being transported, be so protected against damage in the manner provided in sub-rules (2) and (3), unless it is securely packed in a box or crate.

(2) Where the design of a cylinder does not provide for the valve being wholly below the level of the body of the cylinder, a stout metal cap or metal cover assembly attached to the cylinder body shall be provided, the design being such that the cap or cover is not likely to come off in the event of any part of the valve or valve body.

(3) Every valve cap or cover on a cylinder which does not contain hydrocarbon acid shall be provided with a coat of work size so as to prevent any gas pressure inside cap or cover.

(4) Nothing in sub-rule (1), (2) and (3) applies to cylinders containing oxygen for medical purposes or helium for diving and having a water capacity not exceeding ten pounds (4.5 kg.).

16. Transport of cylinders:—(1) Cylinders shall be so transported as not to project beyond the sides or ends of the vehicle in which they are transported.

(2) Adequate precautions shall be taken to prevent cylinders falling off the vehicle and being exposed to impact shock, excessive shocks or heat stress.

(3) No lifting magnet shall be used in loading or unloading cylinders.

(4) When any work operation is carried on by means of a crane, a properly designed tackle with chain slings shall be used.

17. Release of valves:—If the Chief Inspector is satisfied that in respect of any cylinder or class of cylinders of any make or construction any of the requirements of these rules may be safely suspended or modified, he may by written order authorize the Inspector or his assistant for each period and under such conditions as he may think fit. Any such order may be revoked at any time.

18. Detail of cylinders:—Whenever there occurs in or about, or in connection with, any place where compressed or liquefied gas cylinders are handled,

stored or transported, any accident in any way connected with such cylinders attended with loss of human life or serious injury to person or property, or of a description usually attended with such loss or injury, the manager of the place at the place in charge of the vehicle, as the case may be, shall forthwith give notice thereof to the officer in charge of the nearest police station and the Chief Inspector.

19. Power of inspection, search, seizure, retention and removal:—(1) Any of the officers appointed in the first column of the following table, when exercising the powers mentioned in column 2 (1) of the table

1	2	3
The Chief Inspector, Deputy Chief Inspector, Inspectors and Assistant Inspectors of Explosives.	All parts of British India.	Ins.

exercised that the powers of removal and destruction under clause (2) of sub-rule (1) of section 7 of the said Act shall not be exercised by any Magistrate or Police officer except under and in accordance with the instructions of the Chief Inspector, Deputy Chief Inspector, or an Inspector or Assistant Inspector of Explosives.

(2) Every facility shall be afforded to the officers specified in sub-rule (1) to ascertain that these rules are being duly observed.

20. Penalties:—(1) Whoever contravenes any offence mentioned in the first column of the following table shall be punishable with fine which may extend to the amount indicated in that behalf in the second column of that table:

(1) Contravening any of the provisions of rules 4, 5, 6, 10 and 11.	Five hundred rupees.
(2) Failing to give notice of an accident under rule 18 or to afford facilities for inspection to an officer authorized under rule 17.	Two hundred rupees.
(3) Contravening any of the provisions of rules 3, 12, 13, 14, 15 and 16.	One hundred rupees.

(2) In proceedings for a breach of rule 4 in respect of the design and manufacture of cylinders it shall be a good defence to prove a certificate from the makers stating that the cylinders were manufactured in accordance with the requirements of Schedule 1.

SCHEDULE I

(See Rule 4.)

Specifications for the construction of gas cylinders and their valves and safety devices and tests for such cylinders.

1. Cylinders for gas which of the most common composition and nature shall be of a strength not less than 1000 lb. per sq. in. of the wall thickness at the ends and throughout the body. The design shall be such that the cylinder shall be able to withstand a pressure of 1000 lb. per sq. in. of the wall thickness at the ends and throughout the body. The design shall be such that the cylinder shall be able to withstand a pressure of 1000 lb. per sq. in. of the wall thickness at the ends and throughout the body. The design shall be such that the cylinder shall be able to withstand a pressure of 1000 lb. per sq. in. of the wall thickness at the ends and throughout the body.

2. Cylinders for gas which are generally subject to the highest pressures shall be of a strength not less than 1500 lb. per sq. in. of the wall thickness at the ends and throughout the body. The design shall be such that the cylinder shall be able to withstand a pressure of 1500 lb. per sq. in. of the wall thickness at the ends and throughout the body. The design shall be such that the cylinder shall be able to withstand a pressure of 1500 lb. per sq. in. of the wall thickness at the ends and throughout the body.

\* The "strength" referred to in this Schedule is the strength of the cylinder in its normal condition. The strength of the cylinder may be increased by the use of a safety device, but the strength of the cylinder shall not be less than the strength of the cylinder in its normal condition.

**SCHEDULE FOR ADMINISTRATION.**

**No. 502.**

IN THE MATTER OF THE CHARITABLE ENDOWMENTS ACT, 1920, AND IN THE MATTER OF "THE NAGA CHILDREN'S AID FUNDMENT FOR NAGA AREAS FOR POOR CHILDREN."

Whereas application has been made to the Government of Madras, under clause (1) of sub-section (1) of section 5 of the Charitable Endowments Act, 1920 (P. 1 of 1920), by Mrs. Mary S. Chelvan, on behalf of her son, Pong Naga Chelvan, the donor of the Endowment Fund known as "The Naga Childrens Aid Fundment for Naga areas for poor children," and referred to in Notification No. 161 issued for setting a scheme for the administration of the said Fund it is hereby notified that His Excellency the Governor of Madras has, in exercise of the powers conferred by section 5 of the said Act, ordered the scheme set forth in the schedule annexed for the administration of the said Fund and directed that such scheme shall come into operation with effect on and from the 25th July 1940.

maximum load for a live load of not less than 50 lb. per square foot, in the case of buildings intended wholly or partly for human habitation, 30 lb. for schools and offices, and 120 lb. for public halls and theatres.

Protrusion of the superstructure shall be so designed as to be within the safe permissible limits for materials specified in Appendix F.

#### Roofs

5. The roof of every building shall be constructed of weather-proof and fire-resisting materials.

#### SPACE ABOUT BUILDINGS.

Space in front and rear of buildings and height of buildings.

10. (1) (a) There shall be provided in front of every building an open space which measured at right angles from the building by the boundary of any level as previously immediately opposite, or in the case of a building fronting on a street to the opposite side of the street, shall throughout the whole frontage of the building extend to a distance of not less than 24 feet.

Provided that, if the building fronts on a street of a less width than 24 feet, the distance may be not less than the width of the street, together with one-half of the difference between that width and 24 feet.

(b) The provisions of clause (a) shall not apply in the case of (i) buildings in streets for which the building has been permitted under section 106 of the Sydney Council Municipalities Act, 1939, and (ii) reconstruction of buildings wherein the portions immediately adjoining the street are not reconstructed.

(2) No structure other than a fence or compound wall not exceeding 3 feet in height, or a partition, porch, awning, or other like projection from the building at a height not less than 7 feet above the ground, whether one pillar or other structure to support it, shall be provided in the open space provided within the setbacks of the building as required by clause 9d.

(3) The height of a building shall not exceed one-third of the width of the street in front of that building; provided that the above limit of height may be exceeded to the extent of 3 feet for every one foot by which the corresponding portion of the building is set back.

(4) (a) There shall be provided in the rear of every building, an open space exclusively belonging thereto and of an extent not less than 200 square feet.

(b) The open space in the rear shall extend throughout the entire width of the building and the distance across the open space from the line of the rearmost wall of the building and from any projection from the building to the boundary of any wall or structure immediately to the rear of the building shall not in any part be less than—

(i) 10 feet if the height of the building is not more than 25 feet;

(ii) 30 feet if the height of the building is more than 25 feet but not more than 35 feet; and

(iii) 25 feet if the height of the building is more than 35 feet.

Where by reason of the exceptional shape of the site of the building the distance across the open space required by this sub-rule cannot be obtained throughout the entire width of the building, it shall be sufficient if the mean distance across the open space is not less than the required minimum distance. The open space required under this rule shall be free from any structure thereon above ground level except a lattice or trellis-work or the support wall, not exceeding 3 feet in height, of a wall, but in no case shall the combined area of such structures exceed one-quarter of the open space.

Notes.—For the purpose of clause 10, (a) and (b) a rear open space of 1000 sq. ft. may be taken as equivalent to the minimum area required and not to less than 10 feet.

(5) In buildings wholly or partly intended for human habitation, constructed continuously without any open space between the adjoining buildings there shall be provided in addition to the space in front and rear under these rules one or more corresponding open to the sky so that the total area of the open

space referred to in sub-clause (1) and (2) together with the area of the courtyard shall not be less than one-third of the area of the building area.

(6) No person who erects any addition to or addition to any building or who erects any new building shall diminish the open space required to be provided in or about the building in an extent less than that required by these sub-clauses.

#### Dependence on Sun.

11. Every room which is intended for human habitation—

(a) shall be on every part not less than 9 feet in height measured from the floor to the underside of the beam or joist or the roof joist, and

(b) shall have a clear superficial area of not less than 80 square feet and a width of not less than 8 feet.

#### Ventilation or Sunlight.

12. (1) Every room which is intended for human habitation shall be furnished with sufficient number of windows or ventilators affording efficient means of ventilation by direct communication with the external air.

Notes.—Windows which open into a veranda, shall be deemed to communicate with the external air provided that they are not less than 10 feet wide and have 10 sq. ft. of area. Every window which is in the roof, the width of any open space being a factor also in the extent of the veranda, shall not be less than 8 feet.

(2) The window or windows of every habitable room in such building shall have a total area of not less than one-twentieth of the floor area of the room and be so constructed that the entire area can be opened.

#### COURTIES AND PATIOS.

13. Every place wherein fire is kindled habitually such as a kitchen or basking place, shall be provided with efficient means for the removal of smoke, or the products of combustion, directly above every fireplace.

Notes.—The screen upon which the smoke of smoking pipes is made to collect is a screen as provided. It is a high and an open screen in the kitchen, where it should be placed at the highest height and the smoke be carried.

## DESIGN AND CONSTRUCTION.

15. Every building shall be provided with means for the efficient drainage of its roof, floor, walls and outside areas from the gutters, and gutters and outside areas shall be provided with the means of the escape of the water.

16. The drainage system and the water supply system shall be constructed with such care as may be required for the purpose.

## EXTERIOR FINISHES.

17. The following buildings shall be exempt from the operation of these rules:—

(1) Any building which is the property, or in the occupation, of the Crown, or which is in the possession of land, which is in the occupation of the Crown.

(2) Any building constructed or reconstructed or intended to be constructed or reconstructed in the Government in accordance with such plan and design as may be approved or directed in pursuance of any statutory provision in that behalf.

(3) Any building constructed or reconstructed or intended to be constructed or reconstructed in accordance with such plan and design as may be approved or directed in pursuance of any statutory provision in that behalf.

## EXTERIOR OF BUILDINGS.

18. The Government may either by rule or by regulation, exempt any building from all or any of the provisions of these rules.

19. In these rules, unless there is anything repugnant to the subject or context, "Government" means the Government of Madras.

**Turned Prices.**—During the last part of May, there was a good demand and it was difficult to buy at the posted level. The demand, however, gradually eased off, due no doubt to the quantities in Europe, as also to the large supplies that were coming into the market which resulted in buyers to the United Kingdom being inundated with offers.
